Philosophy

SKiNiUS® is the dermatological brand of **100% Made in Italy functional cosmetics** and food supplements characterised by synergic and complementary active ingredients. The company was born in 2008 from the sensitivity of mind and skin of biologist **Dr. Mariagrazia Boniardi**: the name, which derives from the English "skin" and the Latin "ius" (right), combines scientific rigour and the emotion of the skin. A link with dermatology that has always guided the research team in the creation of essential and multifunctional products. The **SKiNiUS®** approach is simple, clean and essential in its **deep scientific content**: the products are in fact functional, focused and concentrated on 'leading' references that smooth out complexities. The aim is to improve the quality of life of the cells by enabling them to produce more collagen and elastin, thus helping the skin to find within itself the natural resources to shine for a long time. Quality, scientific rigour and a passion for dermatology are the secret of **SKiNiUS®**, the company that makes #happycells its mission. Numerous awards from the scientific world and the loyalty of consumers have allowed **SKiNiUS®** to establish itself from a small Milanese home-office as a **point of reference in the Italian dermocosmetic-dermatological market.**

Mariagrazia Boniardi

SKiNiUS® President

Amenities line

The **SKiNiUS®** line by **Allegrini**, is born from the joint-venture between dermocosmetics and the amenities world. The collection includes: **Shower Gel, Shampoo, Hair Conditioner, Body Lotion** and **Soap**.

Fresh and energizing ingredients created to take care of yourselves, every time of the year.

A real revolution that will enhance the rooms of your guests, an exclusive service to make their stay unique and, above all, to pamper them in the best possible way.
